MUNICIPAL PRACTICES TO END HOMELESSNESS

THURSDAY

NOVEMBER 19

10:00 -
11:00 AM

City of Riverside Office of Homeless Solutions: The City of Riverside has long been addressing homelessness and has modeled the various ways cities can use federal, state, and local funds to implement a Comprehensive System of Care. Through the use of data and the delivery of outreach, case management, shelter and wraparound supportive services, the City's Housing Authority has successfully created innovative permanent housing solutions. With an emphasis on regional collaboration, the City has emerged as a leader in modeling best practices to address homelessness from a municipal framework.

Speaker: Hafsa Kaka, Officer of Homeless Solutions

Regional Homeless Alliance (RHA): In 2016, Temecula, Murrieta, Menifee, Lake Elsinore, and Wildomar came together to form the Regional Homeless Alliance (RHA). It is the mission of the RHA to solve homelessness within Southwest Riverside County, and to ensure that the most at-risk and underserved populations within the region are connected to resources and services that will allow them to escape a life of homelessness.

Speaker: Brian Ambrose, City of Murrieta Senior Manager of Community Services
